Based on the provided data, Slyt National Bank's portfolio appears to be well-diversified and robust. The bank's loan portfolio, valued at MAD 250 billion, is composed of Corporate Loans (MAD 150 billion), Retail Loans (MAD 80 billion), and SME Loans (MAD 20 billion). The bank's non-performing loans (NPLs) stand at MAD 12.5 billion, representing 5% of the loan portfolio, which is a manageable level given the bank's strong capital adequacy and liquidity ratios.

The bank's average interest rate of 4.5% exceeds the benchmark rate of 3.5%, indicating a competitive lending strategy. The bank's capital adequacy ratio (CAR) of 15% is well above the regulatory minimum of 10%, ensuring sufficient capital to absorb potential losses. The liquidity coverage ratio (LCR) of 120% and the net stable funding ratio (NSFR) of 110% also surpass regulatory requirements, indicating strong liquidity and funding stability.

The bank's cost-to-income ratio of 45% suggests
